Downloading CCTV Footage To Smartphone From Hikvision DVR

- Click on **Pro Control + Icon** and open CCTV App
- Choose required camera
- Open the '**Menu**' by clicking the 3 Dots, top right
- Click '**Playback**'
- Choose required date and click
- Use the **slider** at the bottom of the screen to find the required event
- If you require just a snapshot then click the '**Camera**' Icon at the bottom of the screen, this will save a photo of the current video segment displayed
- If you require video footage once located click the '**Video Camera**' Icon to commence recording footage, the icon will turn **red** to show it's recording.
- Click '**Video Camera**' Icon again to stop recording, the icon will return to normal
- Click the top left '**Arrow**' twice to return to main app screen
- Click '**More**' Bottom right
- Click '**Pictures and Videos**' to access your recorded files
- Click on the file you wish to send
- Click the 'Send' Icon, bottom row second from right, then choose how you wish to send file.
